CHRISTIAN RONNEL C. DACLES

INFORMATION TECHNOLOGY

PROFILE

I'm a Bachelor of Science in Information Technology with a strong interest in building practical and efficient digital solutions. I enjoy learning new technologies, working on hands-on projects, and continuously improving my technical skills.

ACADEMIC PROJECTS

AirTrack: IoT-Based Environmental Monitoring Urban Households JAN 2025 - JUNE 2025

An IoT-based project that monitors gas, temperature, and humidity to improve awareness of the rising harmful air conditions to their home.

Tools used: Microcontroller, Sensor, Arduino IDE

QuickWash: Laundry Management System MAY 2025 - JUNE 2025

A desktop application managing customer records, laundry services, and transaction statuses, improving laundry operations.

Tools used: C#, SQL Server, Visual Studio 2022

Anime Theme Website with CRUD Operation JAN 2024 - FEB 2024

A web-based CRUD application with an anime theme, allowing users to create, read, update, and delete anime entries. Designed for front-end development and user interaction.

Tools used: HTML, CSS, JavaScript, MySQL, Visual Studio Code

INTERNSHIP / OJT EXPERIENCE

Maynilad Water Services, Inc. 486 HOURS

An IT Intern assigned to the Quality, Sustainability, and Resilience Department. Responsible for handling data and contracts, as well as assisting and orienting newly assigned interns.
